

Jean Colville and Millie Evans came over at mid-day and spent several hours working on Rebecca's bells -- they are arranging them in Chronological order so that the various members of the Colville family can pick and choose.

I telephoned RGT at about 9 AM and asked him to come by and help me complete the 1st bimonthly report for the PHMC on the stabilization of CCH & C; he came by around noon (when Jean and Millie were here) and we worked on the report. at 1 PM, John Klimkewicz & Mason Essif came by "for tea." RGT left not long after Mason and John arrived. I made scones and Mason and John & I had tea in the Library. John looked at the "house album" and we talked about their radio and television plans for the near future -- John is leaving for London on Friday where he will study on an internship program sponsored by Temple University; Mason will serve on an internship program at Atlanta, Georgia. at about 4 PM, Mason and John left.

From late afternoon until around 9 PM I prepared several boxes of documents for the Wednesday trip to Micrographics:

1. the birth, marriage and death certificates that John Klimkewicz sorted out (from the basement of Carbondale City Hall and Courthouse)
2. the proceedings of the CCH & C & the CCH & M from July 1981 - March 1983
3. CAHW -- the complete manuscript (rather "typescript")

Called Job's mother around 9:30 PM and arranged for her to notarize the PHMC report on Wednesday A.M. Job & the crew had spent from 5-9 PM working in CCH & C on the 3rd floor. Job & I didn't have much to say to each other when I telephoned & b. Casan at 9:30 PM. about the "notarizing". at around 11 PM, RGT and Darlene came by and RGT brought the 3rd photograph of "work in progress" for the PHMC report.
